Safety is of the utmost importance in today's world and the security measures available to schools and other institutions have taken on a greater sense of urgency and priority.

Merchants Metals Tuf-Guard® pre-hung security gates are engineered to meet the high quality material and construction standards necessary to meet your perimeter security requirements. Our reputation for quality has been built over the last 50 years and our pre-hung security gates are reliable members of our family of products.

**Tuf-Guard® Pre-Hung Security Gates**
- Available in Chain Link and Ornamental, Single or Double
- Ornamental style includes welded wire for increased security
- Galvanized Steel Components
- Wide variety of opening sizes and heights
- Panic Bar Exiting Device for safe and easy emergency exit
- Gates are shipped completely assembled from the factory
- Controlled Entry

Tuf-Guard® gates can be secured with keyed mortise locks or electric locks controlled from inside building.

**APPLICATIONS**
- Educational Campuses
- Medical Institutions
- Airports
- Storage Facilities
- Parking Areas
- Housing Complexes

**Maintenance Free Coating**
Tuf-Guard® gates are coated using a 10-step TGIC polyester powder coat finish. This revolutionary process ensures years of maintenance free performance.

Our unique method of attaching the chain link to the gate frame provides added security and strength.

Tuf-Guard® gates are equipped with a panic exiting device which provides a safe and easy exit in the case of an emergency.
